

# ELIZABETH BERNAYS

## SIX LEGS WALKING

### READING, BOOKSIGNING, & DISCUSSION

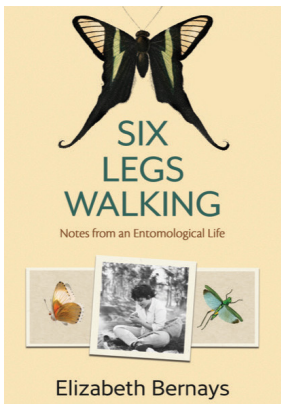

**2 PM • SATURDAY, OCTOBER 19**

**J**oin the Peregrine Book Company and co-sponsor, the Natural History Institute for a reading with author and entomologist Elizabeth Bernays. Elizabeth will read from her new book, *Six Legs Walking: Notes from an Entomological Life*.

#### About the Author

Elizabeth Bernays grew up in Australia, then worked as a British government scientist before becoming a professor at the University of California Berkeley. She holds a PhD in entomology from the University of London and is Regents' Professor Emerita at the University of Arizona. She has published over two hundred scientific papers and books, and several popular biology articles.

#### About the Book

Like the painted lady butterflies that fascinated her as a child in Queensland, Australia, entomologist Elizabeth Bernays has lived a migratory adventure, following her scientific curiosity around the world before landing at the University of Arizona. In *Six Legs Walking: Notes from an Entomological Life*, Bernays takes us along on her evolution from backward child to accomplished biologist as she explores scholarship, culture, and love, all while immersed in the wonders of some of the smallest creatures on earth. *Six Legs Walking* is the inspiring story of one woman's lifelong love affair with science.
