We're excited to announce a special book launch!

Thursday, November 21st
7:00-8:30PM

Join authors, Carl and Joan Tomoff, and publisher, Natural History Institute, for a celebration, author talk, and book signing of their new field guide:

**Woody Plants of the Mogollon Highlands**

A field guide and botany companion

Carl and Joan Tomoff

Focusing on the recently delineated and ecologically unique Mogollon Highlands ecoregion of Arizona and New Mexico, *Woody Plants of the Mogollon Highlands* covers over 80 species of trees, shrubs, vines, and succulents.

With an easy-to-read botany introduction, scores of full-color plates, and in-depth profiles of fascinating ecological topics that put plants in context, this book will be a welcome resource for beginners and experts alike.

**About the Authors:**

Carl Tomoff was a professor of environmental studies at Prescott College for more than four decades; he has a Ph.D. in Community Ecology. Joan Tomoff taught science and math from middle school to college levels; she has a Ph.D. in Educational Psychology.

**About the Book:**

Price: $20.00
Date of Publication: November 2019
Published by and available from: Natural History Institute
